# *Together, we touch the lives of 11 million patients a year.*

## **When patients are counting on you, count on us.**

Lisa is a HER2 positive breast cancer patient who is celebrating her sixth year in remission.

She knows that the HER2 test and targeted therapy made a difference.

She loves her life and doesn't spend her precious time wondering what will happen next.

She doesn't look for medical information online.

She looks to you.
